It is finally happening. Yippie!!!

Dr. Moez khakiani has announced his certificate course on Porcelain Laminate and Veneer hands-on course, in Mumbai on heavy public demand.

This is your one-time opportunity to learn the basics of PLV from the master himself, as he takes you through the journey of smile design using conservative modalities.

A two-day course filled with some breathtaking photos and videos to help you understand the diagnosis, planning and execution of various clinical scenarios like diastemas, peg laterals, crowding, fractures, replacement of old restorations, bite reconstructions, and a whole lot more.

The course has been designed for those who have no experience in porcelain veneers and want to learn the correct way. Whether it be case selection, smile planning, tooth preparation, impression techniques, provisionalisation, or bonding of the veneers; it is all covered and in great detail.

You are sure to leave the session with utmost confidence and the urge to start cases using his principles.

Are you ready to learn the art and science of changing lives, by changing smiles?

Day 1
